

Funding better health for women & babies

I'm really pleased to announce that on Monday 9th June at our Cuba Evening we raised £790.00 for my Cycle Cuba event in March '09.

This means I now have 51% in my funds.

Thank you to all those people who came to the event, who worked that night and to our kind suppliers who donated prizes.

Jenny x

Ps Thanks also to the people who have sponsored me.

"Help us raise funds to support vital medical research which is really making a huge difference to people starting a family and to babies who have difficulties at the start of life."
